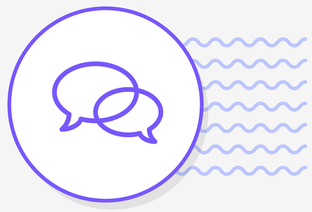
Template



Retrospective

Use this framework to reflect on recent work. This simple structure is useful both alone and in groups.

Created in partnership with

Product School

Reflect on the topic

Working silently and individually, have each person create a few sticky notes in all four quadrants below for about five minutes. With the remaining time, discuss notes in each quadrant.

What went well?

What should we keep doing?
What should we celebrate?
Where did we make progress?

TOPIC

Workstation engineering team Sprint 10

What went poorly?

Where did we have problems?
What was frustrating to us or others?
What held us back?

In India, the highest per capita consumption in 2018-19 is in Dadra and Nagar Haveli, at 15,179 kWh. The Union Territory is followed by the states of Gujarat (2,378), Goa (2,274), Haryana (2,082) and Punjab (2,046).

Access to electricity is the percentage of population with access to electricity. Electrification data are collected from industry, national surveys and international sources. India electricity access for 2020 was 99.00%, a 1.69% increase from 2019.

With new rates applicable from today, Punjab becomes the only state in India to offer the cheapest electricity for residential connections

Depleting coal supplies at thermal power plants, the mainstay of India's power sector, has resulted in this crisis. Coal-based power generation, with a capacity of around 210 gigawatts (GW) of the total 396 GW, accounts for about 53 per cent of India's total power capacity as on March 2022

What ideas do you have?

What ideas do you have for future work together?
Where do you see opportunities to improve?
What has untapped potential?

How should we take action?

What do you believe we should do next?
What specific things should we change?
What should extend beyond this meeting?
